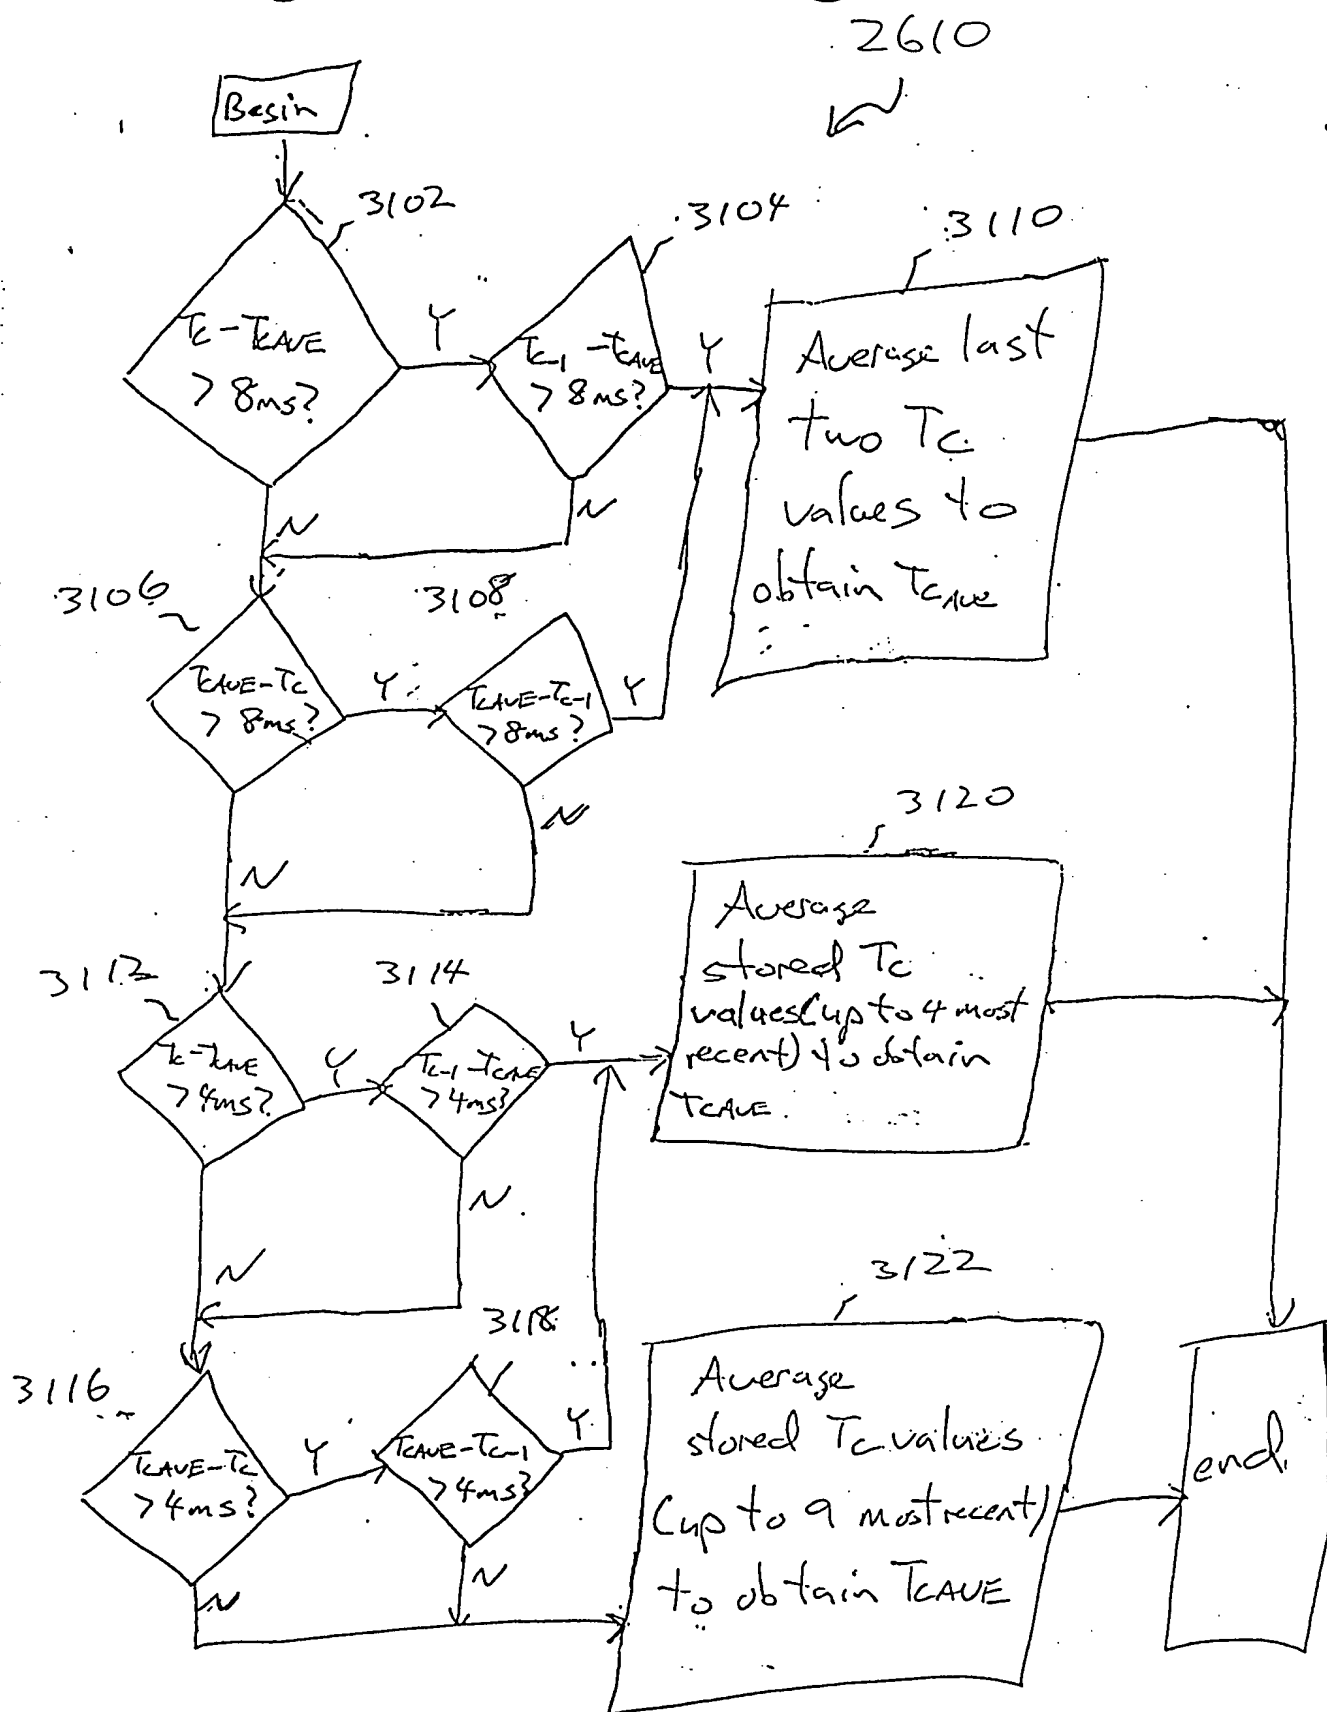

Fig. 31

Fig. 32A

Fig. 32B

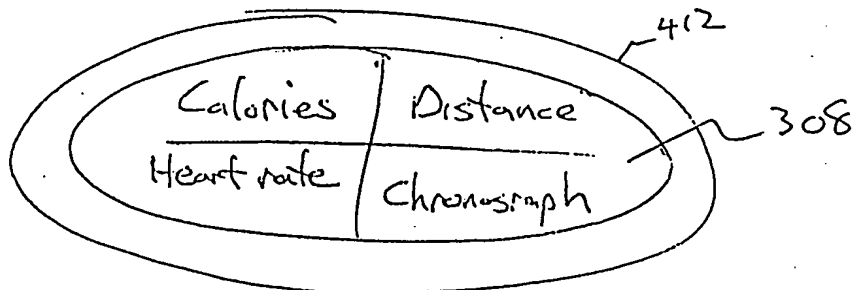

Fig. 32C

Fig. 32D

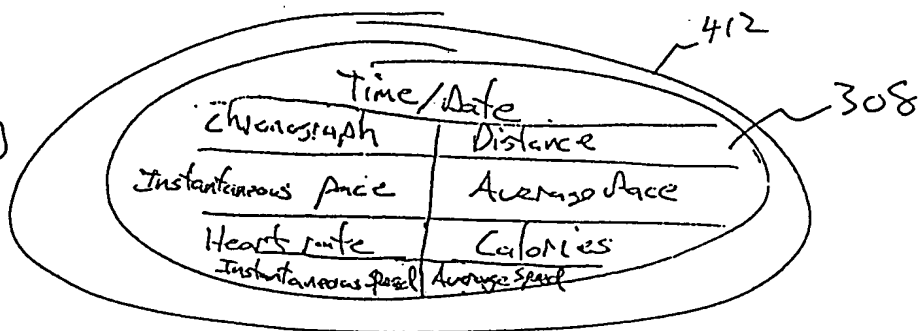

Fig. 32E

Hand-drawn diagram of a device, likely a bicycle computer or speedometer, showing a display screen. The screen displays a table with four columns: "Instantaneous speed", "Calories", "Chronograph", and "Distance". The table is divided by a horizontal line and a vertical line. Reference numeral 308 points to the display screen, and reference numeral 412 points to the device body.

Instantaneous speed	Calories
Chronograph	Distance

A hand-drawn diagram of a 2x2 table. The table is enclosed in an oval. The top-left cell contains the text "Instantaneous Pace", the top-right cell contains "Distance", the bottom-left cell contains "Average Pace", and the bottom-right cell contains "Heart rate". An arrow points from the number "308" to the "Distance" cell. Another arrow points from the number "412" to the right side of the oval.

Instantaneous Pace	Distance
Average Pace	Heart rate

A hand-drawn diagram consisting of two concentric ovals. The inner oval contains a 2x2 matrix with a vertical line separating the columns and a horizontal line separating the rows. The top-left cell contains the text "Instantaneous Speed", the top-right cell contains "Distance", the bottom-left cell contains "Average Speed", and the bottom-right cell contains "Heart rate". A line points from the label "308" to the top-right cell ("Distance"). Another line points from the label "412" to the right side of the outer oval.

Instantaneous Speed	Distance
Average Speed	Heart rate
